\*Unit of Analysis: C=community, H=household, I=individual, B=business, R=record, F=facility, P=pregnancy.

\*\*1993 files and the Master file are sorted differently than files for other years. See **ID Variables** for instructions for me

\*\*\*IDs in 1997 and 2000 files are appropriate for cross-sectional files merges *only*. Due to ID problems, merging 1997 advisable.

++In 1997, all household-level variables in the Household Survey are contained in *one* file: c97hh. In 2000, all househ

+++Unit of analysis and key sort variables are indeterminate for 1989 and 1991 Business and Income files. 1993 indiv 1993 business-level data (c93hh11b).

#The numeric suffix in Community Survey filenames refers to part number. Please read our **data use agreement** if yc

##1991 Ever-Married Women data files are not available at this time.
